The Baltimore Kennel Club will have on exhibition twelve or more English and Irish setters and pointers. As many dog owners have asked to be allowed to decorate the stalls of their exhibits, Mr.
Lincoln announces that this feature will be encouraged in the exhibition. He expects that it will add largely te the aitractiveness of the display. Already the entries are larger in number than at the same time last year. The judges selected for the show are as follows: Department of mastiffs, St.

SELLING FAST TROTTING HORSES.

The sale of trotting stock under the manage ment of Kelloug & Co. was continued at the Ameran Institute building yesterday at 10 a m Though the attendance was somewhat smaller, greater interest was shown, and the bidding was more spirited than on the day before. The build-

more spirited than on the day before. The building itself was far from being comfortable, there baying been no provision made for heating.

The first horse sold was Compeer, chesnut gelding, sire, Keutucky Prince, dam Jeanette, (the property of A. B. Darling, New-York) sold to W. F. Osborne, of Ansonia, Conn., for \$245. Many others followed at very low prices. The bay mare Amy, of the well-known Hambletonian stock, which is still in the ascendant on the turf, was sold to Charles Carleton, of Chicago, for \$2,500, the highest price that was reached in the second day's sale. Amy's record is 2:224, and Mr. Peck, her last owner, thinks she can be made to do still better. The chestnut mare Maggie Duro, also a descendant of the famous Rysdyck Hambletonian, brought one of the largest sums. Arthur Gillender, who bought Judge Fullerton on Tuesday, became the purchaser for \$1.275. There were forty-eight horses in all soid vesterday, and fifty-seven the day before. Among those present were Messrs. A. B. Darling, Charles Bachman, Joseph D. Willis, and Dr. James O'Roorke. This sale has been far more satisfactory than that given in the Spring of 1878, when the prices fell much below those obtained yesterday.

TESTING THEIR FITNESS FOR SERVICE.

The examinations of applicants for appointments in the service of the Appraiser's Department were completed pesterday. The class yesterday was composed of candidates for positions as clerks and higher class samplers at a salary of \$1,200 a year. The applicants-twenty-one in number-were described by a member of the examining board as an unusually intelligent set of young men, some of whom were apparently fresh from college. One of the candidates said in his preliminary examination that he had served as an officer in the Confederate army during the Rebellion. Of the clerks and samplers already in the service of the Appraiser's Department three were cited to trove their fitness for their positions by undergoing the same examination. The examination consisted of exercises in the following: Copying from dictation; arithmetic: fundamental rules of fractions, proportion, percentage, interest and reduction; elements of account and bookkeeping, geography, history and principally relating to the United States; elements of English grammar, chiefly orthography and syntax; writing and "briefing" letters, and penmanship. The appointments to fill present vacancies will be made April 1. scribed by a member of the examining board as an

Chief of Police Woods was in the station at saloon. Chief of Police Woods was in the station at the time, and was informed that Ahren was coming down Jackson-ave., and he started out in company with Ring to arrest him. The Chief, contemplating an easy captue, went up to arrest his man, when Ahren pulled out his knife and sprang at Ring. Ring warded off the thust, when the Chief drew his club and closed in upon him. Ahren managed to free himself and made a thrust at the Chief, drawing the knife across his hand, but only cutting his glove. MR. KELLY ON THE WEST STREET BILL. Controller Kelly has sent to the Assembly Committee on Cities a letter opposing the West Street Improvement bill. His opinion is that a great wrong will result if it becomes a law. He has forwarded an argument of John H. Strahan to show that nothing was received by the city for the privilege given to private persons to collect wharfage. All the equities in the matter are with the city. The All the equities in the matter are with the city. The right to wharfage is in the city alone, unless it has validly conveyed this right to others, and on this point the Courts have determined in favor of the city. In conclusion, the Controller says that he cannot believe that the Committee on Cities will be a party to the transfer, without consideration, of property worth fully \$15,000,000 to private persons.

A WHALE IN THE EAST RIVER.

The large whale which was brought to the city Tuesday, lay at the foot of Stanton-st., vesterday, where it was prepared for exhibition. It is a male and of the fin-back species, and consequently of little value for its oil. Although young and not full little value for its oil. Although young and not full grown, it is 63 feet in length, and before being disembowelled it was 60 feet around the body. The lower jaw is about 12 feet in length, and the upper about five feet longer. The eyes and ears are scarcely more than two inches in diameter, and the gullet is very small for an animal of such immense size. The tail has a spread of between 10 and 12 feet. The whale was captured Thursday, March 17, off Provincetown, Cape Cod, by a fisherman named Lavender, and was killed by means of beom lances. It is to be exhibited at or near Futton Fish Market, to which it is to be towed this morning, if the water is not too rough.

IMPROVEMENTS AT MANHATTAN BEACH. Austin Corbin, President of the Manhattan Beach Improvement Company, returned to the city yesterday after an absence of a week in Boston. He said ress of the new improvements at Manhatten Beach, that they were going on finely. Freight frains on the Manhattan Beach Railroad are carrying large quantities of material to the beach daily, where the Winter's quiet has been broken by the appearance of scores of working, and the varied sounds that accompany their labors. D. C. Corbin said to the reporter that the brack work of the new hotel, the Oriental, was about completed and that the raising of the frame work would speedly follow.

MR. VOORHIS WANTS A CORRECTION. Police Commissioner Voorbis has written a letter to President Morris, of the Board of Aldermen, showing that a recent statement of Mr. Morris in the Board of Apportionment concerning him was not true. Mr. Morris said that Mr. Voorhis had voted in the Police Board to hire four offices for the Police Inspectors. Mr. Voorhis shows by the records that he was not a member of the Police Board at the time referred to by Mr. Morris. Mr. Voorhis suggests that Mr. Morris make at once a public correction.

A BEER GLASS AS A MISSILE,

Henry C. Lennox, of No.32 West Twenty-eighth-st. entered the liquor shop at No. 1261 Broadway early yesterday morning and acted in a disorderly manyesterday morning and acted in a disorderly man-ner. Josept Fernandez, the proprietor, ordered him off the premises and finally threw a beer glass at him, which struck his right check, making a deep cut. He bled prefusely and was taken to his home. Fernandez was arrested and in the Jefferson Market Police Court yesterday Justice Duffy remanded him to await the results of the injuries.

By the rules of the Police Department, persistent refusal by an officer to pay just debts furnishes grounds for a charge of conduct unbecoming an officer. This principle was applied vestering in the case of Sergeant Edward Delamater, of the Fifth Precinet. The defence was made by his counsel that under the decision in the case of Captain Siehert, the commissioners have no right to meddle with his private affairs. The case was adjourned to allow the Board to take advice as to its course.

STRIKING LABORERS SUCCESSFUL.

THE ADVANCE CONCEDED TO THE CABINETMAKERS -THE PIANOMAKERS' LOCKOUT PEACTICALLY

Henry Herrmann, the furniture manufacturer. whose 500 cabinetmakers have been on strike for a number of weeks for an advance in wages, yielded yesterday to all their demands. Lost week he published an offer of terms even exceeding the demands of the men, but they declined to accept the terms because Mr. Herrmann did not communicate directly with them at the Germania Assembly Rooms. Being pressed with orders and greatly desiring to operate his factory Mr. Herrmann thought to overcome the scruples of a portion, at least, of the men by offering rewards to those who should come first to the Mott-st. factory on Tuesday morning, ready to work. No man was tempted by the offer to desert his fellows, and accordingly yes-terday morning Mr. Herrmann sent his superintendent to the daily meeting of the men and asked to have a committee sent to see him. The committee was sent, and Mr. Herrmann promised all that the men demanded, agreeing also not to attempt to enforce any rule forbid ding the men leaving the factory to drink beer during working hours. The men will meet again this morning, and, if it shall then be found that their benches and tools have all been replaced in their former places, they

will march to the factory in a body. Of the half-deren plane manufacturers who did not on Tuesday come to an amicable understanding with their men upon the breaking down of the lockout, three effected a settlement yesterday and a fourth practically did, also. Between the other two and the workmet there still remain some points of dispute which may require time to arrange. The employes of Sohmer & Co. met in the morating and had a talk with the firm, who finally agreed to pay the advance of ten per cent in-sisted upon by the men as a condition of returning to work. Accordingly, the factory was soon in full opera-

James & Holstrom wrote to their employés as follows: We agree to pay the advance of ten per cent to our Madame Jul 2e Vanlos, who lives at No. 144 workmen, as proposed—work to commence on Monday. It was stated by the Executive | rest.

Committee that Steck & Co. and their men were in a fair way to arrive at an understanding mutually satisfac-tory, and that the latter would probably resume work next week. W. E. Wheelock met his employes yesterday morning, and promised to grant the advance of ten per cent if other manufacturers did the same. Though no positive agreement was made, the men subsequently expressed themselves hopeful of an early settlement of all

J. P. Hale, who had never avowed any connection with the lockout, has posted on his factory doors a no-tice to the effect that the repairs, which made it neceswith the lockout, has posted on his factory doors a notice to the effect that the repairs, which made it necessary to close the factory, have been completed and that the men may return to-day. No positive information was given out yesterday regarding the intentions of the men, but it was strongly hinted that they would demand the abolition of the contract system, which appears to be particularly obnexious to them.

Albert Weber informed his employe's resterday that he wished to see them at the factory in the afternoon. The men met at the Tentonia Assembly Booms and sent a committee, composed joinly of Weber men and members of the Executive Committee of the Union, to see Mr. Weber and state that the men could be reached only through the Executive Committee, and also that they demanded the promise of an advance of 10 per cent before again entering the factory. The committee reported back to the men as follows: "Mr. Weber read our letter of instructions from you and laughed at it. He said he would consider the question of an advance when the men returned to work." This latter statement was received with derisive groams and the meeting was adjourned until Saturday next. Mr. Weber is apparently resolved not to accede to the demands of the men and the latter say they will not otherwhee return to work. The Executive Committee of the Union declare that the case of the men is now in their kinds and that there shall be no yielding. There were no steps taken on either side yesterday to make peace between Stein way & Sons and theer striking employés.

The question of an advance of wages among the conductors of the clevated railroads has not yet been settled. It is under discussion and the men say they are confident that the desired advance will be given; some state that it has been virtually promised to them.

The regular meeting of the Bricklayers Protective Union bast night at the West Side Germania Assembly Rooms, was a quiet one, with only the regular routing of business; contrary to the rumar that there would be a not

a noisy time in establishing the rate of wages of the Union men.

A meeting of the United Order of American Carpenters was held has evening at Carondon Hadl. James Cassidy acted as president. The secretary read a premible and resolutions expressing symmathy with the straking pianomakers, and denouncing Reckaway Beach capitalists for scouring the Western States for carpeters when there were pleafy of men in New-York. Specenes were made by Louis Miller, Mr. Schiff, of the Planomakers' Union, John Barden and Thomas Lamb, encogracing the carpenters to stand by their organization, and to demand their wares increased to \$3 per day. At the close of the meeting, contributions were received for the aid of the striking panomakers, amounting to \$5.70.

BOOKS AT GREAT PRICES.

EARLY LAWS AND FIRST PRINTED BOOKS. BRADFORD'S "NEW-YORK LAWS" SOLD FOR A ROUND \$1,600-other works for \$200, \$300, and \$500-QUAKER BOOKS-A FRAGMENT OF "DE BRY "-PETER ZENGER AND REYNIER JANSEN.

The sale of the Brinley Library was continued at Clinton Ball yesterday afternoon at 1 even-ug. High prices held their own at both sessions. There Mr. Brinley. Collectors see in this fact a new confirmation of their familiar claim, that ancient books as who knows something of rare books as well as of other investments, keeps his faith in rare books unshaken, and buys the rarest and rare books unshaken, and buys the farest and costlest. The sale has already produced more than \$75,000, and only the first half has been said. How many surprises Dr. Trumbull has yet in store for people it would be hard to confecture. He has a way of keeping things back. The present part is, at least, as rich as the first, and if the remaining two hold to the standard, what may not come forth at last ?

The chief interest yesterday, was centred in the remaining early printed New-York and Pailadelphia books books which are among the rarest of American pubest of Mr. Brinley's possessions thus far seen-Brad-ford's collection of the " Laws and Acts of the General Assembly for Their Majesties Province of New-York" (1694), being "the first book printed in New-York and the first collection of the Laws of New-York." It was the first collection of the Laws of New Lors. It was started at \$600. Mr. Moore offered \$625 and it can rapidly up to \$1,000, then to \$1,200, and finally to a round \$1,000, at which price it fell to the New York State Library. This copy is unique, in that it contains additional session laws not found in the other known a perfect condition. No single volume this year has at all approached this in price, the nearest to it being the "Bradford Almanac," sold on Tuesday, for \$555, and Colden's "Papers Relating to an Act," which brought \$685. The highest price realized last year was for "The Bay Psalm Book," which Mr. Vanderbilt purchased for \$1,200. A newspaper in two volumes, The Penesylvania Gazette (1728-1730), printed by Frankin & Keimer, and the first newspaper printed by them, brought \$560, and went to Yale College after a lively tilt with Pailadeiphia people. In the Odell sale that Nuraberg Neur Neylong, the first of Sessions, yesterday, on an indictment for newspaper printed in Europe, seed for only \$10, and went to London at that. Americana, of all hooks, does bring the largest prices in New-York. There is no tenger doubt of that. "Bradford's Prayer Book," the first ger doubt of that. " Bradford's Prayer Book," the first American edition of the Book of Common Prayer, wantwilliams, J. P. Gibney and Maurice Littman, went to Albany, yesterday, to oppose the bill now before the Legislature for the removal of the Forty-second Street Reservoir. The committee is instructed, in case the bill for its removal is to pass, to try to have it so amended that the ground instead of being used as a park shall be sold at auction for the city.
